

STAFF SUMMARY FOR APRIL 20-21, 2022

13. GENERAL PUBLIC COMMENT (DAY 2)**Today's Item****Information** ☒**Action** ☐

Receive public comment regarding topics within the FGC's authority that are not included on the agenda.

Summary of Previous/Future Actions

- **Today's receipt of requests and comments** **Apr 20-21, 2022; Monterey/Trinidad**
- Consider granting, denying, or referring Jun 15-16, 2022; Los Angeles/Orange County

Background

This item is to provide the public an opportunity to address FGC on topics not on the agenda. Staff may include written materials and comments received prior to the meeting as exhibits in the meeting binder (if received by the written comment deadline), or as supplemental comments at the meeting (if received by the supplemental comment deadline).

General public comments are categorized into two types: (1) requests for non-regulatory action and (2) informational-only comments. Under the Bagley-Keene Open Meeting Act, FGC cannot discuss or take action on any matter not included on the agenda, other than to schedule issues raised by the public for consideration at future meetings. Thus, non-regulatory requests generally follow a two-meeting cycle (receipt and direction); FGC will determine the outcome of the non-regulatory requests received at today's meeting at the next regularly-scheduled FGC meeting, following staff evaluation (currently Jun 15-16, 2022).

Previously, petitions for regulation change were received under general public comment; however, they are now received under a separate agenda item, *Regulation change petitions*.

Significant Public Comments

All written comments are summarized and provided as exhibits under Agenda Item 2.

Recommendation

FGC staff: Consider whether to add any future agenda items to address issues that are raised during public comment.

Exhibits

See exhibits for Agenda Item 2.
